

# A Mobile Health Project Committed to Caring for the Health Needs of Our Community.

The Community Care Team can assist people in their own homes. We will work together with the healthcare system to be sure our community members get the best care possible!

## HEALTH ASSESMENTS

- Blood Pressure screening & monitoring
- Chronic disease monitoring and education
- Medication set-up / compliance

## PREVENTION & PUBLIC HEALTH

- CPR and First Aid classes
- Facilitate Diabetes Education
- Car seat checks
- Public health initiatives (i.e. seat belts, etc.)
- Welfare checks
- Informal Counseling
- Connecting to Community Resources

## TRANSPORTATION

- Provide rides to and from local clinics
- Transport home from local hospitals

## HOME SAFETY CHECKS

- Physical environment assessment
- Identify hazards
- Modification recommendations

## REFERRALS TO DPHHS

- Social Services
- Mental Health
- Substance use disorders

## HOSPITAL DISCHARGE & FOLLOW-UP CARE

- Wound care, dressing changes
- ECG analysis
- Wellness Checks
- Patient education
